

## Simple things make us happy

This week we have been thinking about things that make us happy, not expensive

toys or belongings, but ordinary, simple things that make us happy each day.

We have heard that there is always something we can find to be happy about. Let's take a few moments to say thank you to God for happy times at home and happy times at school.

Our reading this week was from the book of Ecclesiastes.

In this reading we are reminded that simple things can make us happy.
